Summary

As a fullstack developer with two years of experience, I have a strong understanding of both the frontend and backend of web applications. I am proficient in a variety of programming languages, including JavaScript, HTML, CSS, and Python. I am also familiar with a variety of frameworks, such as React, Jquery, and Django.

 I have experience collaborating with cross-functional teams to deliver high-quality projects on time and

within budget. I am passionate about staying up-to-date with the latest web technologies and constantly improving my skills to

create engaging user experiences.
